### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicant's amendments and arguments have overcome the rejections of record. The amendments to the claims clarifying the thermal barrier coating as providing an effective barrier between the component and an extreme environment by having a sufficient thickness and thermal and structural properties provides definition over the articles of Wickersheim '286 and Allison '528. As stated by applicant, the article of Wickersheim has a phosphor coating applied as paint. This paint would not be expected or be recognized as obvious to one of ordinary skill as providing a barrier to the underlying component and an extreme environment. Wickersheim makes no discussion or allusion to a thickness of the paint or thermal or structural properties of the painted coating with regard to providing a barrier. Similarly, Allison does not discuss or allude to a thickness of the phosphor nor its thermal or structural properties with regard to providing a barrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer C McNeil whose telephone number is 571-272-1540. The examiner can normally be reached on 9AM-6PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on 571-272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
